1 First One

1.1 Alpha

1.2 Beta

```
\setupbodyfont[pos]

\setupinteraction [state=start]

\placebookmarks [chapter, section] [chapter]

\starttext

\chapter {First One}

\section {Alpha}

\section {Beta}

\bookmark {indeed a beta}

\typefile {d-en-005.tex}

\chapter {Second One}

\section {Gamma}

\section {Delta}
```

Suggestion: when you use \type {texexec}, you got as many
runs as needed. This file was processed by saying:

```
\starttyping
texexec --pdf d-en-005
\stoptyping
```

This script runs \type {texutil} and \TeX\ as many times as
needed to get all cross references right.

\stoptext

2 Second One

2.1 Gamma

2.2 Delta

Suggestion: when you use `texexec`, you got as many runs as needed. This file was processed by saying:

```
texexec --pdf d-en-005
```

This script runs `texutil` and TEX as many times as needed to get all cross references right.
