

Contents of the SIT-2015 proceedings

Introduction 3–4

Mathematics and Informatics

KOVALEV EGOR S., SMIRNOV ALEKSANDR V., BEZ-
ZUBCEV ARTEM YU. *Development of algorithms of
quadrocopter movement in narrow location* 5–16

PARMYONOVA LYUBOV V. *Reaching meta results on computer
science lessons* 17–24

Applied informatics in economics

REMIZOVA ALEXANDRA E. *Analysis of the wage dynamics of
employees in the Pereslavl, Yaroslavl Region and Russia* 25–38

Mathematics and Informatics

KARPESH SERGEJ V., PETROV ALEKSEY A. *Development of
automatic control systems immersion liquid cooling system of
high-performance computing systems.* 39–48

LYUBAVIN ALEKSEY S. *Solving the equations of two-dimensional
adiabatic motion of the gas in the space without torsion* 49–57

Applied informatics in economics

SIDOROV ANDREI S. *Assessment of the level of innovative
development of industrial enterprises* 59–72

BOGDANOVA MARIA S. *Assessment of quality of life* 73–88

Mathematics and Informatics

SHUSTOVA MARIA V., KIRILLOVA DARIYA A. *Reorganization
of presentation of educational data in Pereslavl University
information system for the accreditation of the university* 89–100

BAKRO DMITRY V. *State of technical equipment prediction by data
mining methods* 101–110

Applied informatics in economics

- NAUMOV ANDREJ V. *Analysis of indicators of social insurance on Pereslavsky region* 111 – 122

Mathematics and Informatics

- PLOTNIKOV DENIS S., KARPESH SERGEJ V., DEMIDOV ALEKSEJ A. *Creation of the timer for conference* 123 – 128

Applied informatics in economics

- OGURTSOVA IRINA A. *The role of the banking system in the Russian economy* 129 – 142

- BATALOVA JULIA V. *Ensuring cleanliness of the city of Pereslavl-Zalesky is an additional factor of tourist attraction* 143 – 155

- KONDRATYEVA EKATERINA A. *Change in the market of mobile communication devices in the world for 1983–2013 years.* ... 157 – 168

Mathematics and Informatics

- DYACHENKO VLADISLAV A. *Development of the UGP information system interface of access to history.* 169 – 176

Applied informatics in economics

- VORONINA EKATERINA A. *The system of remuneration of employees in higher education* 177 – 185

- KOMYAGINA EKATERINA A. *Correlation analysis macroeconomic indicators* 187 – 195

Mathematics and Informatics

- PLOTNIKOV DENIS S., KARPESH SERGEJ V., DEMIDOV ALEK-
SEJ A. *Creation of the timer for conference* 197–202
- MATYUSHKINA KSENIA A. *Site development Youth World Cup,
“What? Where? When?”* 203–208
- PAYMUSHKIN ILYA A. *Performing training tasks to create the client
module for working with MIS Interin PROMIS* 209–214
- BELY ARTEM V. *The Integration of IP-telephony into Medical
Information System Interin* 215–222

Applied informatics in economics

- MARKOV ARTEM I. *Analysis of administrative offences in the city
of Pereslavl* 223–230
